THE PROCESS

STEP 1 -

The finest pigments are mixed to create color.

STEP 2 -

Metal stencils are made by hand for each design.

STEP 3 -

Cement backing & topi are added to prepare the tile for pressing.

STEP 4 -

The mold is pressed to form the tile.

STEP 5 -

The fresh tile is carefully removed from the mold and left to rest.

STEP 6 -

Each tile is soaked in water to cure, then dried and packed.

Our Happy Customers

“A good line of products. The customisation in colours & design permitted a free hand to the designer & end user. Looking forward to working more with BFT in future”

Mrs. Dilnavaz Variava, among the first women graduates of IIM Ahmedabad, revived Bharat Floorings & Tiles in 1999 by restoring its heritage and protecting jobs. Guided by simplicity, she believes wealth should uplift the less privileged, symbolized by a flower motif representing lifelong learning and growth. After handing over the business in 2015, she continues serving society through environmental, nutrition, and education initiatives.

A CENTURY OF MAKING ARTISANAL TILES

With a reputation dating back for over 100 years, Bharat Floorings & Tiles is considered a leader in custom-made designer cement floorings. Customers have trusted the brand's superior quality and welcomed the company into their daily lives, creating invaluable memories for generations of office and home owners. Our handmade floor art has created bespoke and unique products that can serve as cherished family heirlooms for years to come. Our cement tiles are crafted by hand, one at a time, using mineral pigments. After the tile is casted by the artisan, it is pressed and cured in water for the necessary strength and then air-dried for developing the strength and durability for which BFT floor and wall tiles are famous.
